

# The Librarians' Introduction to

By Brittany Netherton

The Graphic Medicine Facebook group is (currently) the best place to interact with Graphic Medicine creators, educators, and librarians from around the world.

## Meet Peers

## Find Books

There are several Graphic Medicine collections you can peruse online to get a sense of what to purchase for your library. Countway Library at Harvard and UCONN Health Sciences Library are great examples of collections for Medical and Academic Libraries. Darien Library maintains an easy-to-browse booklist of titles for Public Libraries.

Graphic Medicine reviews can be found on [GraphicMedicine.org](http://GraphicMedicine.org).

## Get Involved

NNLM hosts a  
Community of Interest  
— join today to get  
involved locally.

Graphic Medicine is full of people who are excited to teach, learn, collaborate, and chat. Flip this page for a more comprehensive list of resources and contacts from today's presentation, and reach out if you need anything!

## When in Doubt

# Graphic Medicine Resource List

## Finding Books

- Countway Library's Graphic Medicine Collection: <https://holлис.harvard.edu/>
  - Matthew Noe buys widely for this collection. It's a great starting place to search for books on various topics, and to see detailed MARC records.
- Darien Library's Graphic Medicine Collection: <https://www.darienlibrary.org/graphic-medicine>
- Graphic Medicine Reviews: <https://www.graphicmedicine.org/comic-reviews/>
- Graphic Medicine Syllabus Repository: <https://www.graphicmedicine.org/resources/teaching/>

## Finding Peers

- Graphic Medicine on Facebook: <https://www.facebook.com/groups/graphicmedicine>
- Graphic Medicine on Bluesky: <https://bsky.app/profile/graphicmedicine.bsky.social>
- Join the American Library Association's Graphic Novels and Comics Roundtable!
- Join a "Drawing Together" event, the last Sunday of each month: <https://www.graphicmedicine.org/drawingtogether>
- Join the NNLM Community of Interest for Region 7 (link below!)

## National Network of Libraries of Medicine (NNLM)

- NNLM's Graphic Medicine Guide: <https://www.nnlm.gov/guides/graphic-medicine-resources>
  - Includes programming and collection development ideas
- NNLM Graphic Medicine YouTube list: <https://tinyurl.com/59p3x7pm>
- NNLM Region 7 Resources: <https://www.nnlm.gov/guides/region-7-informational-guide?tab=6>
  - Try Graphic Medicine Book Club Kits -- a FREE program in a box
  - Join the Graphic Medicine Community of Interest to support peers in R7
  - Sign up for an international Graphic Medicine listserv for announcements
- NNLM Reading Club: <https://www.nnlm.gov/reading-club>
  - Reading Club has book suggestions and resources on a different health topic each month. Book recommendations often include Graphic Medicine titles.
